

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## PREFACE.

---

It will be remembered that at the Diocesan Conference, held at Birmingham on 31st October and 1st November, 1896, a proposition was made and carried that a survey of the present number and condition of Registers within the Diocese should be made, and a small Committee was formed to take the necessary steps to obtain the information.

At a subsequent meeting, over which the Bishop of Worcester presided, and at which the three Archdeacons and every one of the thirty-one Rural Deans (except two who were ill) attended, the Hon. Secretary of the Committee put forward some details of a scheme by which every Incumbent should be requested to fill up a simple though carefully devised form.

This scheme, after a few minor alterations, was unanimously adopted by the meeting and was forthwith brought into action, and forms, accompanied by an explanatory letter, were forwarded to every Incumbent in the Diocese whose Registers commenced earlier than 1812.

During the year of 1897 the greater part of the forms had been returned, and the Committee were able to present a very satisfactory Report at the Conference held at Worcester in October of that year, which was printed in full in *The Worcester Diocesan Magazine* for November, 1897, pp., 73, 74, 75, 76, 77.

At this Conference permission was asked to make the forms available for reference by printing a Digest of them, and as

half the estimated cost of printing was guaranteed by the Committee, and no objection raised, permission was accorded and the present volume is the result.

Having given in brief the account of the work now brought to a conclusion, the Committee wish to offer a few remarks as to the contents of the Digest and its manner of arrangement.

In the first place, the same order of Archdeaconries and Rural Deaneries is observed as in the Diocesan Calendar, since that plan is now thoroughly well known throughout the Diocese, and lends itself very conveniently to the Digest, whilst a general Index of Parishes at the end makes reference easy. Every Parish is numbered in accordance with the original returns, and they run alphabetically in each Rural Deanery.

Following the name of the Parish come the letters A, B, and C. These letters relate to three returns made at different periods, and it is by means of the dates following these letters that it can be ascertained whether the Registers now in existence have been preserved or lost since the dates of the three previous returns.

Letter A refers to a return made in 1812 as to the number of Registers existing in that year. It is not quite certain under what authority these returns were sent in, but it is probable that it was made in connection with the altered form of entries of Baptisms and Burials consequent upon the Act of Parliament of 52 George III. (1812), known as Rose's Act, which placed the Registers under the control of the Registrar General.

These returns relate only to the Archdeaconry of Worcester, since those of Coventry and Birmingham were then in the Lichfield Diocese and are not available. The Worcester documents are preserved at Edgar Tower, Worcester, and have been placed at the service of the Committee by the kindness of Mr. J. H. Hooper, the Diocesan Registrar, for the purpose of comparison with the present Report.

Letter B refers to the page in the third volume of the Census Report made in 1831. This Report contains a list of the Registers throughout England and Wales then existing and gives the dates at which each Register began.

Letter C refers to a Return made in 1872 by an order of the House of Lords, and communicated to the several Bishops in the Kingdom, requiring them to obtain particulars as to when every Register commenced. These Returns have likewise been kindly lent to the Committee by Mr. Hooper.

It may be observed with respect to these three Reports, A, B, C, that no definite form of enquiry was sent out, so that every Incumbent made what report he thought fulfilled the conditions required, and as may be expected, every one differs from another in style and value, some merely stating that their Registers begin in 1538 (or whatever year it might have been), others giving fuller particulars, while some few conscientious individuals gave most minute particulars as to size, number of leaves, &c.

The Digest of the Forms received during 1897 and 1898, from all Incumbents whose Registers commenced earlier than 1812, contains all the essential particulars of the original returns. The Form (a facsimile of which is annexed, Appendix I), if carefully filled up presents as faithful a view of the present state of the Registers in the Diocese as can be given under the circumstances.

If it had been possible for two or three of the Committee to have gone the round of the Diocese, no doubt a still more perfect and uniform report would have been obtained, for there was in many instances an evident dislike to make any returns, in others all the particulars requested have not been given, and in a few cases information of any kind was absolutely refused. On the whole, however, every assistance was given to render the Return as reliable and trustworthy as could reasonably be expected.

The Committee desire to state that the original returns have been suitably bound and deposited in Edgar Tower, Worcester, where they can be referred to should occasion require.

Turning now to the table of Gains and Losses (Appendix II), it may be stated that these are frequently more apparent than real. Some registers begin earlier, *e.g.*, in the Baptisms than in Burials or Marriages, and the person making the Return may have taken the first entry of a Burial as the earliest date, when a closer

inspection would have revealed the fact that the Baptisms commence earlier by perhaps ten years or so. Without a personal inspection of every one of these apparent gains or losses, the Committee are not prepared to affirm what is the actual state of the case, so that this table must not be held to be rigorously exact. There are, however, several instances in which an actual gain or loss of a register is undoubted.

Bearing upon the subject of Parish Registers in general, there will be found in Appendix III, a copy of the 70th Canon of Convocation 1603, whilst Appendix IV, supplies a few facts connected with them.

The Committee are glad to be able to state that the attention of other Dioceses has been called to the condition of Parish Registers, and a survey, somewhat similar to this one, has been made in the Diocese of St. Albans, whilst the County Council of Shropshire has issued a first report on the Registers of that County.

The Committee wish particularly to draw attention to the list of Bishops' Transcripts which follows the Digest of Parish Registers. It was compiled a few years ago by the late Rev. T. P. Wadley, and Mr. J. Amphlett, assisted by Mr. H. Wickham King, after they had thoroughly investigated a mass of documents that had been accumulating for years in Edgar Tower. These gentlemen spent many weeks in sorting them into their various parishes, and though many of the parchments could not be identified on account of dirt, dust and decay, yet the bulk has been carefully put up into bundles, and can be readily consulted.

Owing to the large quantity of documents, and the limited time at the disposal of these gentlemen, transcripts later than 1700 have not been sorted into parishes; this work it is hoped may be undertaken at a subsequent period.

In conclusion, the Committee wish to impress on all Incumbents the importance of preserving their old Registers in as good a condition as possible; the expenditure of a few shillings in binding and repairing, spread over two or three years, would sufficiently restore them and prevent further loss and destruction. The name of a trustworthy binder can be obtained from the Hon. Secretary of the Committee, Mr. E. A. Fry, 172, Edmund Street, Birmingham.

## [APPENDIX III.]

The following is the 70th Canon of Convocation of Canterbury, made 1 James I., 1603, which not having been repealed still holds good, and though the method of making entries and keeping the Registers has been somewhat altered, the spirit of the Canon should be still observed :—

## LXX.

MINISTERS TO KEEP A REGISTER OF CHRISTENINGS,  
WEDDINGS, AND BURIALS.

---

In every Parish Church and Chapel within this realm, shall be provided one parchment book at the charge of the Parish, wherein shall be written the day and year of every christening, wedding, and burial which have been in that Parish since the time that the law was first made in that behalf, so far as the ancient books thereof can be procured, but especially since the beginning of the reign of the late Queen. And for the safe keeping of the said book, the Churchwardens, at the charge of the Parish, shall provide one sure coffer, with three locks and keys; whereof the one to remain with the Minister, and the other two with the Churchwardens, severally, so that neither the Minister without the two Churchwardens, nor the Churchwardens without the Minister, shall at any time take that book out of the said coffer. And henceforth upon every Sabbath day, immediately after morning or evening prayer, the Minister and Churchwardens shall take the said parchment book out of the said coffer, and the Minister, in the presence of the Churchwardens, shall write and record in the said book the names of all persons christened, together with the names and surnames of their parents, and also the names of all persons married and buried in that Parish in the week before, and the day and year of every such christening, marriage, and burial; and, that done, they shall lay up that book in the coffer as before, and the Minister and Churchwardens unto every page of that book, when it shall be filled with such inscriptions, shall subscribe their names.

And the Churchwardens shall once every year, within one month after the five-and-twentieth day of March, transmit unto the Bishop of the Diocese, or his Chancellor, a true copy of the names of all persons christened, married, or buried in their Parish in the year before (ended the said five-and-twentieth day of March), and the certain days and months in which every such christening, marriage, and burial was had, to be subscribed with the hands of the said Minister and Churchwardens, to the end the same may faithfully be preserved in the registry of the said Bishop; which certificates shall be received without fee. And if the Minister or Churchwardens shall be negligent in performance of anything herein contained, it shall be lawful for the Bishop, or his Chancellor, to convent them, and proceed against every of them as contemners of this our constitution.

The Vicar says that on Whit Sunday, 1894, the safe at the Church was broken open. and the Register Books were left on the grass of the Graveyard only covered with an old Cassock . . . . . They no doubt suffered from exposure. They were also probably dealt with very roughly, perhaps the Instruments used for opening the safe may have torn one or two of the Volumes.

## PREFACE.

---

By an order dated 25th October, 1597, made by the Archbishop, Bishops and Clergy of the Diocese of Canterbury, it was directed that, during the month after each Easter, all entries made in the Parish Registers in respect of the year (ending on 25th March) then past, should be copied and transmitted to the Bishops' Registry. A similar mandate was also issued in 1603. These copies constitute the Bishops' Transcripts.

When the publication of the Digest of the Parish Registers in the Worcester Diocese was under discussion, it was suggested that it would be a valuable addition if the following Index to the Bishops' Transcripts was printed with it, as thereby the Clergy and others would have an epitome of a source of information that is practically unknown or ignored. The suggestion was immediately adopted.

For many years the Bishops' Transcripts were stored in the roof of the Cathedral. Now they are kept in the Bishops' Registry, Edgar Tower, Worcester. Some of them have suffered from damp; and many, especially those for the large parishes which were used to wrap up the others, are dilapidated. Nearly all are written on parchment, and some in Latin.

The earliest is from Wichenford, for 1599. For the period before 1610 there are only 75, and for the years 1643-1659 inclusive, 25. From 1610-1642, and 1660-1700 they were apparently transmitted fairly regularly.

In 1878 Mr. J. Amphlett, of Clent, and the late Rev. T. P. Wadley, a former Rector of Naunton Beauchamp, began and accomplished the stupendous task of re-arranging all the Transcripts up to 1700, and of compiling this valuable Index. They found the Transcripts in bundles, each of which was supposed to contain those for one year from the whole Diocese. They divided them into a number of bundles, each of which contains the Transcripts for one Parish only, and is labelled with the reference number assigned to the Parish in this Index.

Many cases occur of two Transcripts from one Parish marked with the same year. It may be assumed that most of them are erroneously dated, and represent missing years. Others, from large Parishes, may be continuations of the entries on to a second sheet. These original errors in the dates, combined with the fragmentary condition of, and the total or partial obliteration of the writing on many of the parchments, rendered the work very difficult. Mr. Amphlett recognises that a revision would be beneficial, but it would take such a long time that this publication would have to be indefinitely postponed.

Transcripts that could not be put away in Parish bundles were placed in bundles A to H, and are shortly described and provisionally allotted to a Parish when possible; for instance, A1 is referred to under heading of St. Clement, Worcester. By comparing these descriptions with the Parish Registers, the source of many of these doubtful Transcripts could be ascertained without going to Edgar Tower. Still more useful work could be done if persons, after extracting the first and last two entries for each year ending 25th March out of the Parish Registers, would go to Edgar Tower, and collate such extracts with the Transcripts.

If any corrections are needed, a note should be made under the Parish heading, in the copy of this Index at Edgar Tower, together with a signed statement of the evidence relied on, or a communication should be made to Mr. J. Amphlett, of Clent, near Stourbridge.

*Persons referring to bundles should themselves tie them up and put them away, and not leave it to be done by the attendant. They should on no account transfer a Transcript to a Parish bundle from*

out of the bundles lettered A to H. If a Transcript is found in a wrong Parish bundle, it will be best to place it in one of the bundles A to H, and make a note in the Edgar Tower copy of this Index, under the head of the bundle in which it is so placed.

The great utility of the Transcripts, and of the work done by Mr. Amphlett and Mr. Wadley has been proved. For, partly owing to the excellent manner in which they have been so arranged, several Parish Registers have, since 1878, been collated with the Worcester Transcripts with interesting results, and in the case of Hagley, the entries for 80 out of 99 years (for which period a whole Register is missing) were thus obtained.

It is hoped that the Transcripts from 1700-1837 will ultimately be arranged in a similar manner, when there will be available for ready reference duplicates of the greater part of the Worcester Diocese Parish Registers.

Transcripts which as a rule cannot (at present) be definitely assigned to any parish. With particulars by which identification can be made.

1631	A1.	Found in 1631 bundle. Signed "William Cotterell, rector." A person of this name was instituted to St. Clement, Worcester, in 1618, but there is a transcript for 1631 in the bundle for that parish. Query is "St. Clemenēs" at the top right-hand corner?
